Creation Adventures by Science Partners

***O LORD, how many are Thy works! In wisdom Thou hast made them all.
The earth is full of Thy creatures. Psalm 104:24***

Join Bill and Merilee Clifton - creationists, authors, Florida Master Naturalists, and science educators - as we explore Central Florida Habitats, observing plants and animals that were specifically designed to live in them. Our day begins at **Blue Spring State Park (BSSP)** in Orange City, home to several habitats including hammock, marsh, swamp, flatwoods, and sand pine scrub. We will **cruise the St. Johns River aboard a hands-on, floating science laboratory!** We'll test the river water for temperature, salinity, and turbidity. We'll dip, collect, and identify marine specimens. And, we'll enjoy our captain's narrated introduction to the wildlife and vegetation of this fragile ecosystem. We'll keep a look out for manatees, alligators, otters, snakes, deer, turtles, birds, and more. Students will have the opportunity to **earn a Jr. Birding Certificate** in the "Wings over Florida" program of the Florida Fish and Wildlife Conservation Commission. After our cruise, we'll **hike** the boardwalk through the lush hammock along Blue Spring Run as we **look for threatened Florida manatees** in the springs. Back at the picnic pavilion, we'll **see a manatee skull and rib**, and Mr. Clifton will teach us about manatees from a creationist perspective. Then, we're off to **Lyonia Preserve** in Deltona where we'll take a short hike into a scrub habitat looking for one of Florida's rarest, most threatened birds, the **Florida scrub-jay**. We'll learn about plants and animals created for the scrub habitat and contrast them with plants and animals of other habitats. We'll also explore the educational **Lyonia Environmental Center**.

We will meet at 8:00 AM at Blue Spring State Park, 2100 W. French Ave., Orange City, FL 32763. Please check driving directions and driving time – and be sure to allow extra time from your home. Driving directions for the rest of the day will be provided upon your arrival. **Be sure to bring a picnic lunch.** It's always a good idea to bring sunscreen, insect repellent, water, rain poncho, and camera. **Our habitat survey will end at Lyonia Preserve at 2:30 PM.** If you have any questions, please email Merilee Clifton at sciencepartners@cfl.rr.com or call / text 407-808-4458.

Minimum number is 25. Maximum number is 38 (pontoon boat capacity). A responsible adult must accompany all children. **Minimum age: 3 years (Coast Guard / life vest regulations).** Cost for ages 3 - 18 is \$30 and for ages 19 years and up is \$32. There is also a \$6 per vehicle (for 2-8 people) park entrance fee to be paid at BSSP. Make your check payable to **Science Partners** and send it along with your registration form below to **343 Allison Avenue, Longwood, FL 32750**. **Deadline for minimum number is November 11, 2022. Late registrations may be accepted, space permitting.**

Registration Form: **CENTRAL FLORIDA HABITATS – Friday, December 2, 2022**
